Story 1: Hedgehog Amnesia (Combining and altering "A Scrambled Hedgehog" and "Saturday Night's All Right for a Fight") Fan Fiction by Danny Wheeler

During a visit to the Mobius of Darkness, Metal Sonic knocked Sonic unconscious and brought him back to Robotropolis. When he awoke before Eggman, Sonic had lost his memory from the blow. Eggman decided to take advantage of the situation and turn Sonic against his friends. He tricked Sonic into thinking that the people in Mobotropolis were the enemy and that they planned to invade the Mobius of Darkness from the Mobius of the Sky. So Sonic went up to fight those who were really his friends. Fortunately, Old Man Owl overheard everything and reported back to Princess Sally.

Sally then tells this to the King, who is greatly worried. Their own friend is now Eggman's weapon. Tails decided to keep Sonic busy, while Rotor and Old Man Owl try to find a way to snap Sonic out of his amnesia. Tails tripped Sonic up with his two tails, and then Old Man Owl puts Sonic on a stretcher to get him to the hospital. Once recovered, he also recovered his memory and asked where Metal Sonic is. Sally comforted him by saying that he's not in the Mobius of the Sky, and Sally is comforted knowing that her beloved hedgehog is back to normal.
